Notice on Amendment of Summary of Financial Results and Submission of Revised Annual Securities Reports for Prior Years

Broadmedia Corporation (hereinafter, "the Company") announces that it has restated its prior years' financial results and submitted revised reports including annual securities reports to the Kanto Local Finance Bureau as detailed below.

We would like to take this opportunity to extend our sincere apologies for any inconvenience caused by this matter.

1. Reason and background for the amendment

The Company has been proceeding with an extensive investigation to clarify the details of the fictitious transactions that had been occurring for a number of years, suffered by Fishing Vision Co., Ltd. (hereinafter, "Fishing Vision"), a consolidated subsidiary of the Company, as stated in the press release announced on January 30, 2018 "Broadmedia Corporation Announced Damages from Fictitious Transactions Suffered by Consolidated Subsidiary and Postponement of Announcement of Financial Results for the First Three Quarters of the Fiscal Year Ending March 31, 2018" and another press release dated March 14, 2018 "Notice of Current Status Related to Damages from Fictitious Transactions Suffered by a Consolidated Subsidiary."

Meanwhile, the Company took the necessary measures to determine the scope of the damage in value caused by the fictitious transactions, given that the summary of financial results and the securities reports already submitted to the Kanto Local Finance Bureau were subject to revision.

Subsequently, the Company established a third-party committee as stated in the press release dated April 13, 2018 "Notice of Status of Investigations into Damage from Fictitious Transactions Suffered by Consolidated Subsidiary," and has completed the investigation as stated in the press release dated May 23, 2018 "Notice of Receipt of Investigation Report from the Third-Party Committee and Date of Announcement of Financial Results for Fiscal Year Ended March 31, 2018."

Moreover, as reported in the press release dated June 12, 2018 "Notice of Audit of Revised Reports for Annual Securities Reports for Prior Years, etc.," the former audit corporation in prior years accepted the engagement of revised reports before the period ended March 31, 2015, and the audit corporation undertook the audit procedures.

However, as reported in the press release dated June 28, 2018 "Broadmedia Corporation Announces Submission of Application for Approval of Postponement of Announcement of Financial Results for the Fiscal Year Ended March 31, 2018," the Company decided to file an application for the postponement because the audit procedures would take time to complete, so the Company would not likely have been able to submit the annual securities reports by the deadline. The application was then approved as reported in the press release dated June 29, 2018 "Broadmedia Corporation Announces Approval of Additional Postponement of Announcement of Financial Results for the Fiscal Year Ended March 31, 2018."

In the accounting method regarding the loss resulting from the fictitious transactions, a lump sum allowance for doubtful accounts was booked in the third quarter of the fiscal year ended March 31, 2018. The former audit corporation pointed out that the method should be changed. Consequently, the Company discussed the matter with the former and current audit corporations. As a result, the Company decided to change the accounting method to another accounting method in which an allowance for doubtful accounts was recorded for accounts receivable-other at the end of each period of the prior years.

As a result, it has become necessary for the Company to make amendments to the Consolidated Financial Results for the First Three Quarters of FY2017, the Third Quarter Financial Results for the 22nd Term announced and submitted on April 13, 2018, and the Consolidated Financial Results for FY2017 announced on May 30, 2018.

Accordingly, the Company has amended its summaries of financial reports retroactively to the fiscal terms ended March 2014 and subsequent terms, and its quarterly summaries of financial reports retroactively to the first quarter of the fiscal year ended March 2016 and subsequent quarters. Moreover, the Company has submitted revised reports to the Kanto Local Finance Bureau regarding annual securities reports for the fiscal years ended March 31, 2014, March 31, 2015, March 31, 2016 and March 31, 2017 as well as quarterly financial reports for the first quarter of the fiscal year ended March 31, 2016 and subsequent quarters.

Regarding the revised reports for the fiscal years ended March 31, 2014 and March 31, 2015, for which the former audit corporation has accepted the engagement, the Company disclosed their restatement on July 13, 2018, prior to the announcements of the other restatements.

2. Summaries of financial reports already restated

Date of restatement: July 13, 2018

Summary of Financial Results

Consolidated Financial Results for the FY2013

Consolidated Financial Results for the FY2014

5. Impact of the amendment

The restatements pertaining to the retroactive amendments are summarized below:

- (1) Accounts receivable from clients on the balance sheet in relation to transactions that fall under fictitious transactions have been canceled out at the end of each period. (As payments were made to subcontractors within the same month in which the service is rendered, there were no accounts payable-trade at each period-end.)
- (2) Instead, the difference between the amount including tax paid to the subcontractor by the specific point in time and the amount including tax received from clients (parties that can be recognized as clients) in relation to transactions that fall under fictitious transactions has been changed to accounts receivable-other from the subcontractor.
- (3) Following discussions with the former and current audit corporations regarding the accounting treatment (2) mentioned above, it was decided that the provision of allowance for doubtful accounts should not be booked in the third quarter of the fiscal year ended March 31, 2018 at once, but every time an account receivable-other is posted, the provision of an allowance for doubtful accounts was decided to be provided for retroactively with respect to the accounts receivable-other of 543 million yen recorded at the end of the first three quarters of the fiscal year ended March 31, 2018. As a result of accounting treatments 2) and 3) mentioned above, total assets and net assets have been reduced retroactively for the fiscal terms prior to the fiscal year ended March 31, 2017.
- (4) Acknowledging that the transactions falling under fictitious transactions are not business transactions whose revenue and costs can be posted, the revenue and costs concerned have been canceled on the income statement.

 \Rightarrow As a result, the revenue and sales cost decreased every term through the second quarter of the fiscal year to March 2018.

(5) As we acknowledged that all the transactions falling under fictitious transactions were subject to consumption tax, consumption tax payable (net of consumption tax receivable) had been paid. We now recognize that this was an excessive payment.

 \Rightarrow We expensed the overpaid consumption tax as non-refundable taxes and dues in each period. As a result, selling, general and administrative expenses increased for each of the periods through March 31, 2017.

(6) As for the fiscal year ended March 31, 2018, corporate income tax has been reduced to an appropriate level, reflecting the items described in (4) and (5) above ahead of the tax return. No accounting revisions have been made to the corporate income taxes for the fiscal terms through March 31, 2017 on the assumption that we would not qualify for revisions to tax charges

retrospectively.

 \Rightarrow Profits declined due to the abovementioned accounting treatments (4) and (5), but there was no change in corporate income taxes through fiscal year March 31, 2017.

- (7) As a result of the accounting treatment described in (3) above, the Company posted extraordinary loss in each of the fiscal years through March 31, 2017. Extraordinary loss has been canceled for the third quarter as well as the full year in fiscal year ended March 31, 2018.
- (8) As a result of the accounting treatment described in (2) and (3) above, the amount of net assets of Fishing Vision decreased, while the overly appraised value of Fishing Vision stock has been reduced, resulting in a revaluation loss for the year of the stock acquisition.
 - \Rightarrow As a result, an extraordinary loss was incurred in the year of the stock acquisition.

 \Rightarrow The amount of valuation loss for the stock was larger than a decrease in net assets for Fishing Vision, resulting in a decrease in amortization expenses of goodwill (selling and general administrative expenses) in later years.

 \Rightarrow Total assets and net assets decreased in the year of stock acquisition, but its impact would be diminished by the last year of the amortization period.

- (9) The Company sold some of Fishing Vision's shares in the fiscal year ended March 31, 2015. When the Company agreed on the transaction value with the purchaser, the calculation of the share value included revenue from the fictitious transactions. As a result, it is likely that the share value factoring in the impact of the fictitious transactions will be calculated again with the purchaser, and this will give rise to a possible decrease in the stock trading price after the event. Accordingly, profit on the sale of stocks posted as extraordinary income in the fiscal year ended March 31, 2015 has been revised downward.
- (10) As a result of the accounting treatment described in (9) above, liabilities increased while net assets decreased in the terms from the fiscal year ended March 31, 2015.
- (11) As a result of the accounting treatments described in (4) through (7), non-controlling interest decreased for the terms prior to the second quarter of the fiscal year ended March 31, 2018, while showing an increase for the third quarter and the full year in fiscal 2017.

The impacts on financial statements are as follows:
