

**TV compatibility added to 3 games from the Final Fantasy® XIII Series**  
**Cloud game apps purchased on a mobile device can also be played on TV!**

Broadmedia Corporation and Broadmedia GC Corporation added TV compatibility to three cloud game apps for Final Fantasy® XIII from the popular RPG series made by Square Enix Co., Ltd. Players can now enjoy the games they purchased through their smartphone or tablet PC on a larger television screen without paying any additional fees.

To enjoy the game, all players have to do is enter the eight digits displayed on the first service screen of a TV connected to or equipped with\* the G-cluster cloud game console. After entering the code, players can continue the games they purchased on a mobile device and enjoy playing them on a TV screen without needing to transfer any data.

For details about this new service, see the following web page.
