2. Reason

The Company recognizes that returning profits to its shareholders while securing competitiveness of its businesses is an important management issue, and as such has a policy of returning profits to its shareholders through dividends, the acquisition of treasury stock, and other measures that are appropriate for its business performance in view of the balance with internal reserves necessary to expand its businesses and launch new businesses. Under this policy, for the time being, the Company has announced that it will aim to maintain a total return ratio of 50%, and a consolidated dividend payout ratio of 30% to 50%.

With regard to the year-end dividend forecast for the fiscal year ended March 31, 2026, we had previously announced a dividend of 50 yen per share. However, after comprehensively considering our future financial position and other factors, we have determined that we can further enhance shareholder returns. Accordingly, we have decided to increase the dividend to 60 yen per share.
